

Seconds, anyone?

BY MARTY HOPE, CALGARY HERALD OCTOBER 16, 2010

Touchstone on Lake Muskoka, a resort community and private residence club north of Toronto, has just released its second phase.

Ownership starts from \$249,000 for a one-quarter fraction and features two-bedroom double master units with 1,625 square feet of living space -- including a gourmet kitchen, nine-foot ceilings, state-of-the-art surround sound stereo system and almost 400 square feet of deck space overlooking Lake Muskoka.

For owners that don't require all the living space, part of the unit can be locked off and rented out separately -- ideal for empty nesters with occasional family visitors. Touchstone owners are also privy to the resort community's extensive amenities, including access to Taste Restaurant, Touch Spa and Tone Fitness Centre, Ontario's first infinity pool, private beach, tennis courts and beach volleyball.

Pre-and post-arrival concierge, housekeeping and grocery services ensure all the details are handled.

Phase II construction is set to commence in the spring with occupancies of the double master units in 2012.
